

# WE NEED YOU TO BECOME INVOLVED IN MAKING UAMS A SAFER PLACE TO WORK

## S.A.F.E.

### Safety Awareness for Employees Program

#### *What is this?????*

A program that empowers front line employees to educate staff on pertinent issues involving safety.

#### *How does this work?????*

Safety Coordinators will be selected by the manager/supervisor from each department/unit and from each shift. The coordinator has to be a front line employee who is willing to step up and make a difference in the Culture of Safety at UAMS. The coordinator will assume responsibility for educating their fellow co-workers on pertinent issues involving safety from information given to them by Occupational Health and Safety (OH&S).

For more information regarding this program, please contact John Ryals at 686-6786.
